

Karachi Institute of Economics and Technology

INTRODUCTION

Karachi Institute of Economics and Technology (KIET) was established in 1997 with the aim of providing quality education at an affordable cost.

KIET was granted degree-awarding status through an ordinance issued by the Government of Sindh on May 24, 2000, and is fully recognized by the Higher Education Commission (HEC) of Pakistan.

VISION

To be a premier higher education institution of Pakistan, fostering a culture of innovation in teaching and research that bridges theory and practice – empowering students with cutting-edge skills, critical thinking, leadership traits, and entrepreneurial mindset to create a meaningful social impact.

Establishment of New Principle Seat

The Institute has launched its new campus, at Super Highway, Karachi. The establishment of this campus reflects KIET's commitment to expanding access to quality higher education and meeting the growing academic needs of Karachi. The purpose-built campus has been strategically developed to serve students residing in the central and northern regions of Karachi, significantly reducing travel time and enhancing convenience.

SALIENT FEATURES

- **Flexible & Market-Driven Programs:** Curricula aligned with emerging technologies and industry needs, with options for evening and weekend programs for working students.
- **Join a global community of over 13,000 accomplished alumni** to excel in life through unparalleled networking, leadership development, and lifelong connections.
- **Financial Aid:** A wide range of scholarships and financial assistance programs to support deserving students.
- **Free Student Health Insurance and Life Insurance of their Parents.**
- **Global Reach:** International partnerships and globally recognized degree programs that prepare students for global career opportunities.
- **Qualified Faculty:** Highly experienced PhD and industry-trained faculty committed to quality teaching and research.
- **Research Focus:** Grants, funded projects, conferences, and state-of-the-art research labs encouraging innovation and interdisciplinary work.
- **Industry Linkages:** Strong collaborations with leading companies, allowing students to participate in internships, industrial visits, job fairs, and joint research projects.
- **Modern Infrastructure:** Purpose-built campuses equipped with digital libraries, smart classrooms, research centers, and advanced computing facilities.
- **Access to Pakistan Education & Research Network (PERN),** enabling connectivity with major educational and research institutions nationwide.
